

University:Future Festival 2021

Open for Discussion

2 - 4 November 2021

Stiftung
Innovation in der
Hochschullehre

Hochschulforum
Digitalisierung

2 - 4 November

THE FESTIVAL

University:Future Festival aims to become the most relevant event on higher education in the digital age in the DACH region.

FACTS

The U:FF will take place from 2 - 4 November 2021 as part of Berlin Science Week. In 2020, we had around 3,000 registrations.

PARTNERS

Hochschulforum Digitalisierung sees itself as part of a network. We work in a broad alliance of partner organisations. The festival is organised by Hochschulforum Digitalisierung in partnership with the Stiftung Innovation in der Hochschullehre.

IMPLEMENTATION

U:FF is a 100% digital experience. Physically, the festival will take place on the EUREF campus in Berlin-Schöneberg. In case the pandemic situation allows it, there will be a limited studio audience as well as an evening event on 3 November.

“Open for Discussion”

THE MOTTO

The motto of the University:Future Festival 2021 is Open for discussion. It stands for openness, for accessibility, for discourse – and for exploring the future together.

THE PROGRAMME

We are looking for contributions that reveal surprising insights, that convey real-world experiences and applied knowledge, that are eye-opening, exciting and entertaining. We are looking for people who are passionate about their projects and visions.

NETWORKING AND INSPIRATION

One focus of the festival: enabling networking. We want to enable a greater number and more intensive contacts through the digital format than classic presence events. In addition, we are creating a digital space for creative interventions with the Creative:Space. And we offer social activities such as getting to know each other rounds, yoga and much more.

Process

Tuesday, 02 Nov 2021

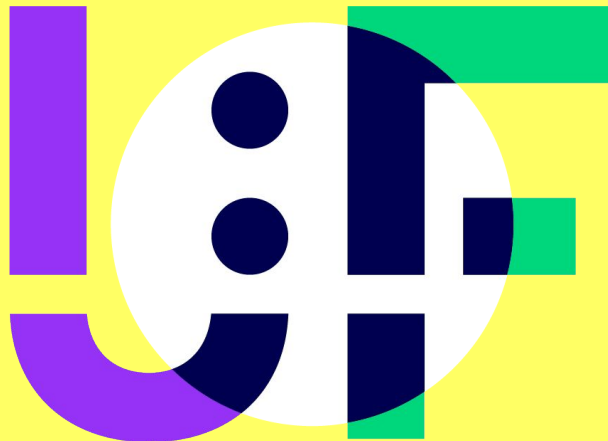

Demo:Day

EdTech start-ups and initiatives make their solutions tangible.

Wednesday, 03 Nov 2021

Conference:Day

Inspiring speakers discuss higher education after the lockdown semesters.

Tuesday, 02 Nov 2021

BarCamp:Day

In a free BarCamp format, participants developed the content and schedule of the day themselves.

Thursday, 04 Nov 2021

Workshop:Day

In workshops, participants work out solutions together and learn from each other.

October 1, 2021:
**Publication
programme**

NOV

November 2-4, 2021:
**University:Future
Festival**

Become Partner?

Network Partner

For universities, civil society and other non-commercial actors

Partners receive visibility. They are mentioned on the website and the platform. They receive a stand on our virtual marketplace if they are interested. Depending on the situation, they receive an invitation to the evening event and to the studio.

In return, partners mention both our Call for Participation and our Registration at least twice on their channels (newsletter, social media, web, etc.). We will of course provide you with texts, logos and sharepics.

Other forms of partnership

For all potential partners

We enter into further cooperation agreements on an individual basis. The key factor in this context is collaboration with respect to content. Please feel free to contact us directly.

Sponsoring is not possible legally. However, we are happy to accept donations for the festival.

Partners

Event partners

Hochschulforum Digitalisierung orchestrates the discourse on university education in the digital age. As a central source of impetus, it informs, advises and networks stakeholders from universities, politics, business and society.

Stiftung
Innovation in der
Hochschullehre

Established in 2020, Stiftung Innovation in der Hochschullehre aims to enable innovation in teaching and learning at universities and to strengthen the renewal capacity of university teaching overall and on an ongoing basis. The foundation supports suitable projects that are anchored at individual universities or implemented in a network.
